

ELLIS Alicante is selected to be part of the Center for Responsible Human-AI Systems (RESUMAIS)

Alicante, 02 of February, 2024. – ELLIS Alicante, alongside with three prominent German research centers, have been selected to participate in the Intel Research Center for Responsible Human-AI Systems (RESUMAIS). This Center marks a significant step towards fostering the development of Responsible Artificial Intelligence (AI).

RESUMAIS aims to foster the ethical, transparent, and user-centric development of Artificial Intelligence, focusing on issues such as fairness, accountability, transparency, and inclusivity in human-AI interaction. The selection of ELLIS Alicante to join this effort underscores its leadership in addressing the ethical dimensions of AI and ensuring its positive impact on society.

ELLIS Alicante, also known as "The Institute for Humanity-Centric AI (IHCAI)," is committed to advancing Artificial Intelligence in a responsible manner, always placing human needs and aspirations at its core. ELLIS Alicante's dedication to Humanity-Centric AI research aims to drive advancements that benefit society while prioritizing ethical considerations.

"We are honored to have been selected by Intel for this significant initiative. It reflects the international visibility and research excellence of ELLIS Alicante and highlights the innovative work taking place in our region," said Nuria Oliver, Director of ELLIS Alicante. "We look forward to contributing to the ethical development of AI to drive positive societal impact with the generous support of Intel."

The Generalitat Valenciana recognises the role of ELLIS Alicante in advancing responsible AI research for social good. This collaboration further consolidates the region's position as a focus for cutting-edge research and development in the field of AI.

Juan José Cortés, Director General of Innovation of the Regional Ministry of Innovation, Industry, Trade and Tourism, said: "We applaud the support provided by Intel to ELLIS Alicante through the RESUMAIS Center. The Valencian government is proud to support excellence in research and initiatives that prioritize the ethical development of Artificial Intelligence. We believe that this partnership will contribute significantly to the responsible use of AI technologies for the benefit of society."

About the Valencian Government

The Valencian government is committed to supporting initiatives that drive technological advancements while prioritizing ethical considerations. With a focus on responsible AI, the government plays a crucial role in fostering collaborations that contribute to the ethical development and use of artificial intelligence for the betterment of society.

About ELLIS Alicante | www.ellisalicante.org/ia

ELLIS Alicante is a non-for-profit private research foundation focused on **ethical and responsible Artificial Intelligence (IA)** for social good. Hence, it is also known as the **Institute of Humanity-centric AI**. ELLIS Alicante aims to be an international reference in **AI research by and for people**, by focusing on three areas of fundamental research in the intersection between humans and AI: 1) **AI that understands us**; 2) **AI that interacts with us**; 3) **AI that we trust**.

ELLIS Alicante is part of the European network of excellence in Artificial Intelligence ELLIS (European Laboratory for Learning and Intelligent Systems - www.ellis.eu), being the only ELLIS unit dedicated exclusively to this area. ELLIS Alicante is the only ELLIS unit created from scratch, with the spirit of a scientific startup.

ELLIS Alicante was launched thanks to the vision, commitment, and generous financial support of the Generalitat Valenciana. It is also funded by other public and private institutions, including the Banc Sabadell Foundation, Balearia Foundation, Intel Corporation and Nippon Gases. The Foundation's work has won major awards including the 500k XPRIZE Pandemic Response Challenge by Cognizant (2021) and the Social Innovation Award (2022).
